OPPORTUNISTIC ORGANISMS MONITORED (SHIPPING NOT STOPPED)

All of these organisms are excluded from JMCRS maximum and high barriers, and most are excluded from standard barrier areas. When a confirmed finding of an excluded organism is made, an investigation is undertaken to identify and eliminate all infected mice from the barrier. Positive results- including results from investigations- are noted in this report, but shipping from the area is not suspended.*

¶ One sample represents testing of 60 pooled animals

§ Testing for this organisms is also performed by PCR

‡This testing is performed by an outside vendor

** A test & cull effort was initiated to eliminate this organism from this barrier. Eleven additional positives were found during a thorough investigation. As of 2/13/24, this investigation was concluded. For additional information call 207-288-6205.

All tests were performed by The Jackson Laboratory
