

## B6C3Fe *ala-Edaradd*<sup>cr</sup> /J

Stock No: 000207 | crinkled

 Chemically Induced Mutation

Typically mice are recovered in 10-14 weeks. Contact Customer Service to place an order or for more information.

## GENETIC OVERVIEW

### Genetic Background

### Generation

*a*

#### Alele Type

Spontaneous

#### Gene Symbol

*a*

#### Gene Name

nonagouti

*Edaradd*<sup>cr</sup>

#### Alele Type

Chemically induced (other)

#### Gene Symbol

*Edaradd*

#### Gene Name

EDAR (ectodysplasin-A receptor)-associated death domain

### Mating System

Outcross-Intercross

TJL Breeding Summary: homozygote x B6C3Fe *a/a* F1 then obligate heterozygote x heterozygote

### Appearance

black

Related Genotype: *a/a Edaradd<sup>cr</sup> /+ or a/a +/?*

black, aberrant coat and teeth

Related Genotype: *a/a Edaradd<sup>cr</sup> /Edaradd<sup>cr</sup>*

### Citation

When using the crinkled mouse strain in a publication, please [cite the originating article\(s\)](#) and include JAX stock #000207 in your Materials and Methods section.

## Animal Health Reports

[Facility Barrier Level Descriptions](#)

*Production of mice from cryopreserved embryos or sperm occurs in a maximum barrier room, G200*

Cryo Recovery	Homozygous for <i>a</i> , Heterozygous for <i>Edaradd</i> <cr>	\$2,854.50

## PAYMENT TERMS AND CONDITIONS

Terms are granted by individual review and stated on the customer invoice(s) and account statement. These transactions are payable in U.S. currency within the granted terms. Payment for services, products, shipping containers, and shipping costs that are rendered are expected within the payment terms indicated on the invoice or stated by contract. Invoices and account balances in arrears of stated terms may result in The Jackson Laboratory pursuing collection activities including but not limited to outside agencies and court filings.

## THE JACKSON LABORATORY'S GENOTYPE PROMISE

The Jackson Laboratory has rigorous genetic quality control and mutant gene genotyping programs to ensure the genetic background of JAX® Mice strains as well as the genotypes of strains with identified molecular mutations. JAX® Mice strains are only made available to researchers after meeting our standards. However, the phenotype of each strain may not be fully characterized and/or captured in the strain data sheets. **Therefore, we cannot guarantee a strain's phenotype will meet**

**all expectations.** To ensure that JAX® Mice will meet the needs of individual research projects or when requesting a strain that is new to your research, we suggest ordering and performing tests on a small number of mice to determine suitability for your particular project. We do not guarantee [breeding performance](#) and therefore suggest that investigators order more than one breeding pair to avoid delays in their research.
