This mouse strain (including any and all progeny, "MICE") is distributed by The Jackson Laboratory with the following terms and conditions.

Collaborative Cross Mouse Collection Distribution

The Collaborative Cross mouse collection is available to the scientific community through a special arrangement with the University of North Carolina, Chapel Hill (UNC-CH). Due to the challenges associated with the breeding of Collaborative Cross lines, a cooperative distribution system is being utilized.

Requests for mice should first be made with UNC-CH. If UNC-CH is not able to supply mice, please place an order with The Jackson Laboratory.
