The Mouse Strain is provided under an agreement with Cedars-Sinai Medical Center, a California nonprofit public benefit corporation having its principal place of business located at 8700 Beverly Boulevard, Los Angeles, California 90048 ("CSMC").

Commercial Purpose means: uses of the Mouse Strain by any organization, including Recipient to perform contract research, screen compound libraries, produce or manufacture products for general sale, or to conduct research activities that result in sale, lease, licenses or transfer of the Mouse Strain to a for-profit organization. However, industrially sponsored academic research shall not be considered a use of the Mouse Strain for Commercial Purposes per se, unless any of the above conditions of this definition are met.

As a service to the biomedical research community, JACKSON provides Mouse Strain to Recipient solely for research use and not for a Commercial Purpose. Each Recipient of Mouse Strain from JACKSON agrees that Mouse Strain and any by-products derived from the Mouse Strain shall be used by Recipient solely for internal research and shall not be sold or transferred or provided to any third party. Each Recipient further agrees not to use any agent or other third party to provide breeding or other services with respect to the Mouse Strain without the prior written agreement of JACKSON. Acceptance of the Mouse Strain from JACKSON shall be deemed agreement to these terms. The original source of the Mouse Strain is CSMC.

In no event shall JACKSON or CSMC be liable for any use of the Mouse Strain, and Recipient hereby agrees to defend, indemnify and hold JACKSON and CSMC harmless from any loss, claim, damage, or liability which may arise from Recipient's use, storage and disposal of the Mouse Strain.
