Commercial Purpose means: uses of the MICE by any organization, including Recipient to perform contract research, screen compound libraries, produce or manufacture products for general sale, or to conduct research activities that result in sale, lease, licenses or transfer of the MICE to a for-profit organization. However, industrially sponsored academic research shall not be considered a use of the MICE for Commercial Purposes per se, unless any of the above conditions of this definition are met.

As a service to the biomedical research community, The Jackson Laboratory ("JACKSON") provides MICE to Recipient solely for research use and not for a Commercial Purpose. Each Recipient of MICE from JACKSON agrees that MICE and any by-products derived from the MICE shall be used by Recipient solely for internal research and shall not be sold or transferred or provided to any third party. Each Recipient further agrees not to use any agent or other third party to provide breeding or other services with respect to the MICE without the prior written agreement of JACKSON. Acceptance of the MICE from JACKSON shall be deemed agreement to these terms. The original source of the MICE is the INSTITUTION.

THE JACKSON LABORATORY MUST RECEIVE THE WRITTEN CONSENT OF NIH BEFORE IT CAN DISTRIBUTE THE MICE.

NON-PROFIT ENTITIES AND THOSE THAT HAVE ALREADY OBTAINED A USE LICENSE CAN DISREGARD THIS NOTICE.
