
NOTICE TO RECIPIENT OF:

LIMITED LICENSE NOTICE TO PARTIES RECEIVING MICE CREATED WITH ZFN TECHNOLOGY ("Recipient")

The ZFN Technology and its use are the subject of one or more of the following patents owned by Sangamo BioSciences, Inc. and controlled by Horizon Discovery (Horizon) for this application: U.S. Patent Nos. 6,534,261, 6,607,882, 6,746,838, 6,794,136, 6,824,978, 6,866,997, 6,933,113, 6,979,539, 7,013,219, 7,030,215, 7,153,949, 7,220,719, 7,241,573, and 7,241,574, 7,585,849, 7,595,376, 6,903,185, 6,479,626, and corresponding foreign patent applications and patents.

BEFORE USING MICE created with ZFN technology, PLEASE READ THE TERMS AND CONDITIONS SET FORTH IN THIS LICENSE AGREEMENT. YOUR USE OF MICE created with ZFN technology SHALL CONSTITUTE ACKNOWLEDGMENT AND ACCEPTANCE OF THESE TERMS AND CONDITIONS.

The purchase of MICE created using ZFN Technology ("Transgenic Model"), including their progeny and derivatives, conveys to the Recipient the non-transferable right to use the Transgenic Model solely for Licensed Research Use (see definition below). Use of the Transgenic Model for any purpose other than Licensed Research Use requires an appropriate license from Horizon (see information below).

"Licensed Research Use" means any use for research purposes, other than:

(a) Licensing, selling, distributing, or otherwise providing or transferring the Transgenic Model to any third party; or

(b) Any use involving development, production or commercial sale of a product or service, including, but not limited to GMP production of therapeutic, diagnostic, prophylactic or other medicinal modified products intended for use in humans or non-human animals. If a product or any derivative of such product is used in or administered to humans, then the production of such product shall be deemed to be GMP production and therefore in violation of this License Agreement.

This Transgenic Model may be bred or cross-bred for Licensed Research Use by the Recipient; however, progeny of the Transgenic Model and biological material derived from the Transgenic Model or its progeny are subject to the same transfer and use limitations as the original Transgenic Model.

Jackson is required by its license agreement with Horizon to submit a report of all recipients of MICE created using ZFN Technology to Horizon.

The use of MICE by or on behalf of a company or other for profit entity requires a commercial license from Horizon prior to the supply.

MICE ARE EXPERIMENTAL IN NATURE, ARE BEING PROVIDED ON AN "AS IS" BASIS, JACKSON, SANGAMO, OR HORIZON MAKE NO REPRESENTATION AND EXTEND NO WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY WARRANTY OF NON-INFRINGEMENT OF ANY PATENT, TRADEMARK, OR OTHER INTELLECTUAL PROPERTY RIGHTS. JACKSON, SANGAMO, HORIZON SHALL NOT BE LIABLE FOR ANY INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES.

In no event shall Jackson, Sangamo or HORIZON be liable for any use of the Transgenic Model, and Recipient hereby agrees, to the extent allowed by applicable law, to defend, indemnify and hold Jackson, Sangamo, HORIZON harmless from any loss, claim, damage, or liability which may arise from Recipient's use, storage and disposal of MICE.
